

THE PARISH CHURCH OF ST. JOHN BAPTIST, BROUGHTON

The large four manual Phoenix Digital Organ was installed at Broughton Parish Church by David Bostock in April 2005. Work commenced in summer 2016 to complete the work that was originally envisaged. Pipe work has been removed from within the organ case and the speakers repositioned on the soundboards to speak into the church. New speakers for the larger pedal stops and solo reeds have been added. The organ now incorporate 93 speaking stops, a state-the-of-art Stepper System has been added, and it has been re-voiced to include English and French specifications.

The organ compliments the fine choral tradition at Broughton Parish Church, and is an extremely fine and versatile recital instrument.

3 Voicing Specifications

1. English 2. French 3. French *
(* Great is played from the Choir manual and vice versa)

16 Divisional settings

Stepper System incorporating 399 pages, each with 15 lines, giving 5985 combinations
